

# SERVICE BRIEF FOR **COMPLIANCE AND FRAMEWORK CONSULTING**

Our compliance experts will guide you on your journey towards meeting major compliance objectives as specified in frameworks and standards such as Payment Card Industry Data Security Standard (PCI-DSS), Health Information Portability and Accountability Act (HIPAA), Gramm-Leach-Bliley Act (GLBA), National Institute of Standards and Technology (NIST) Cybersecurity Framework (CSF), NIST 171, NIST 800-53, and International Organization for Standardization (ISO) 27001.

We will identify areas for improvement in your existing setup and provide you with detailed recommendations on how to achieve your desired certifications and standardization goals.

## **BENEFITS**

- Increase your organization's knowledge of critical compliance frameworks.
- Empower your company to pursue additional objectives to improve security and expand your business capabilities.
- Operate with confidence with an industry professional at your side, ready to answer cybersecurity compliance and framework questions at any time.

## **OVERVIEW**

Lodestone's Compliance and Framework Consulting service puts our years of compliance expertise at your fingertips with a Lodestone expert prepared to answer your company's compliance and framework questions at any time. Whether you are maintaining compliance with a single standard or looking to add more to your company's repertoire, we help demystify the process and identify what changes would most benefit your organization's progress towards its goals.

## WHY LODESTONE

Lodestone is a global cybersecurity firm committed to helping clients prevent, investigate, and prepare for security incidents. It was built from the ground up to offer an innovative, behavior-based approach to proactive cybersecurity and digital forensics and incident response (DFIR). We are comprised of top investigative talent and offensive security experts from several of the world's largest cybersecurity firms, as well as military veterans and former members of national security organizations, including the Federal Bureau of Investigation (FBI) and the National Security Agency (NSA). We combine this expertise with our unique understanding of legal requirements through our relationship with our parent company, Beazley, which has been at the forefront of cyber insurance for over a decade. Through this relationship, Lodestone has developed a unique understanding of the intersection between insurance and cybersecurity while preventing, preparing for, and responding to some of the toughest security challenges that industries face today.

### Compliance

Since its founding as a subsidiary of Beazley in 2017, Lodestone has offered its customers insight into both cybersecurity and the cyber insurance industry. We help companies align and stay compliant with cyber insurance coverage requirements. In addition, we offer discounts to channel partners to form long-term relationships.

### Security Focus

Lodestone's experts live and breathe cybersecurity and are committed to helping customers face some of the biggest challenges of their careers. We do not sell vendor security products – our offerings are purely service-focused, and any third-party tools we recommend are the product of genuine, vendor-agnostic, and tested endorsement, not business deals.

### Expertise

Lodestone's approach to Incident Response is to have the top cybersecurity experts in the world, as the lead, and as the touchpoint, when responding to cybersecurity incidents. This is done with the backing of comprehensive, real-time threat intelligence to provide clients with protection across the life cycle of a potential security event or incident.

### Tailored Approach

We understand the individual challenges of every situation and consider the human side of the equation, never taking a "one size fits all" approach. We blend design, threat intelligence, and technology with human insights to provide clients with the greatest cybersecurity advantage.

### Threat Intelligence

Our deep understanding of threat actor tactics, techniques, and procedures (TTPs) is based on decades of experience in DFIR and the diligent gathering of threat intelligence from all possible sources.

### Agility

Time is of the essence before, during, and after an intrusion. We stand ready to move in quickly and effectively at the first sign of an intrusion.

### Team Experience

## METHODOLOGY

Lodestone Compliance and Framework Consulting service is comprised of these primary phases:

- **Preparation** – We work with you to identify your company’s goals and needs in regard to compliance and frameworks. This includes gaining an understanding of your current security posture and the maturity of any existing programs in place, as well as your company’s goals for the future.
- **Consultation** – Lodestone experts provide recommendations based on discussions with your key personnel about your compliance and framework goals. We also stand by ready to answer any questions about existing or new standards your company is working towards as they arise.

## DURATION AND DELIVERABLES

The duration of Compliance Framework and Consulting varies based on the number of consulting hours purchased as part of the original engagement.

This service does not include any deliverables, but instead offers guidance via email, phone, or in-person discussion.
