

# SERVICE BRIEF FOR **SECURITY AWARENESS TRAINING**

The "human factor" is one of the companies' least addressed yet greatest security risks. We empower your employees to identify and report suspicious activity in your environment and integrate best practices into their everyday work with minimal disruption.

Our training can be provided in person, in a recorded format, or both, and we tailor our content to cover all of the security topics that best suit your company's interests and needs.

## **BENEFITS**

- Support a strong culture of security within your organization.
- Reduce the chances of success of common social engineering attacks such as phishing.

## **OVERVIEW**

Ensure that your team stands ready to prevent some of the most widespread cyberattacks today, such as phishing, ransomware, and fraud. Lodestone experts equip your company with easy-to-understand and effective training available on demand.

## WHY LODESTONE

Lodestone is a global cybersecurity firm committed to helping clients prevent, investigate, and prepare for security incidents. It was built from the ground up to offer an innovative, behavior-based approach to proactive cybersecurity and digital forensics and incident response (DFIR). We are comprised of top investigative talent and offensive security experts from several of the world's largest cybersecurity firms, as well as military veterans and former members of national security organizations, including the Federal Bureau of Investigation (FBI) and the National Security Agency (NSA). We combine this expertise with our unique understanding of legal requirements through our relationship with our parent company, Beazley, which has been at the forefront of cyber insurance for over a decade. Through this relationship, Lodestone has developed a unique understanding of the intersection between insurance and cybersecurity while preventing, preparing for, and responding to some of the toughest security challenges that industries face today.

### Compliance

Since its founding as a subsidiary of Beazley in 2017, Lodestone has offered its customers insight into both cybersecurity and the cyber insurance industry. We help companies align and stay compliant with cyber insurance coverage requirements. In addition, we offer discounts to channel partners to form long-term relationships.

### Security Focus

Lodestone's experts live and breathe cybersecurity and are committed to helping customers face some of the biggest challenges of their careers. We do not sell vendor security products – our offerings are purely service-focused, and any third-party tools we recommend are the product of genuine, vendor-agnostic, and tested endorsement, not business deals.

### Expertise

Lodestone's approach to Incident Response is to have the top cybersecurity experts in the world, as the lead, and as the touchpoint, when responding to cybersecurity incidents. This is done with the backing of comprehensive, real-time threat intelligence to provide clients with protection across the life cycle of a potential security event or incident.

### Tailored Approach

We understand the individual challenges of every situation and consider the human side of the equation, never taking a "one size fits all" approach. We blend design, threat intelligence, and technology with human insights to provide clients with the greatest cybersecurity advantage.

### Threat Intelligence

Our deep understanding of threat actor tactics, techniques, and procedures (TTPs) is based on decades of experience in DFIR and the diligent gathering of threat intelligence from all possible sources.

### Agility

Time is of the essence before, during, and after an intrusion. We stand ready to move in quickly and effectively at the first sign of an intrusion.

### Team Experience

**1000+**  
**ENGAGEMENTS**

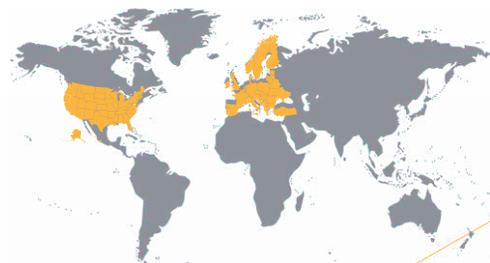

**200+** **YEARS**  
**COMBINED EXPERIENCE**

**50+**  
**CERTIFICATIONS**

### Experts Unlike Anyone Else

**EX-** MILITARY  
LAW ENFORCEMENT  
INTELLIGENCE

TOP CONSULTING  
FORTUNE 100 ENTERPRISE

### Global Presence - NA/Europe

## METHODOLOGY

Lodestone Security Awareness Training Service is comprised of these primary phases:

- **Preparation**– We work with you to identify any particular security topics your company would like to cover. Our experts also make recommendations based on current threat actor trends and industry-specific concerns.
- **Training** – Lodestone team delivers a one-hour training session covering the topics discussed, empowering your personnel to detect, report, and prevent cyberattacks.

## DURATION AND DELIVERABLES

The duration of the Security Awareness Training service varies greatly based on the type and amount of training purchased as part of the original engagement, as well as the size and type of audience.

This service includes the use of a presentation that is provided to you for future reference after the training is complete.
